3. Authorization for this examiner's amendment was given in a telephone interview with James P. Zeller (attorney for applicants) on November 21, 2006.
4. The application has been amended as follows:

In Claim 1, line 4, change "applying the organic" to --- applying an organic ---.

In Claim 16, line 1, change "claim 15" to --- claim 14 ---.

5. The following is an examiner's statement of reasons for allowance: As previously indicated, Neither Mitchell et al'137 nor Mougin'457 teaches or suggests present method of forming a pattern as claimed in present claim 1 or claim 13.

Although Hashino et al (JP 8-29972 and its machine-assisted English translation as provided by JPO) teaches a layer containing polyvinylphosphonic acid, in Hashino, the layer is applied on a support and then a photosensitive layer is applied on top of that layer. However, in present claims 1 and 13, a photoresist layer is first applied onto a semiconductor substrate, and then a layer containing polyvinylphosphonic acid is

applied on top of the photoresist layer. Thus, Hashino et al (JP'972) does not teach or suggest present methods of claims 1 and 13.
